OUR STRATEGIC DIRECTION

OUR OBJECTIVES

1. Catalyzing Growth:

We offer consultancy services that ignite the advancement of agro-industrialization, unlocking new opportunities and driving sustainable growth for businesses in the agricultural sector.

2. Innovative Solutions:

We pioneer services that revolutionize productivity, offering visionary solutions to overcome development challenges in agricultural logistics, infrastructure, and value chains.

3. Impactful Support:

We stand at the forefront of development initiatives, collaborating with government programs and aiding in humanitarian emergencies. By providing essential services, inputs, tools, machinery, and technologies, we enhance productivity and ensure effective service delivery.

OUR VISION

To create a profitable and competitive agro-industrial sector, empower private sector, and foster a vibrant rural economy.

OUR MISSION

We provide unparalleled technical assistance, innovative solutions, and cutting-edge technologies to drive agro-industrialization, facilitate private sector development, and promote sustainable rural economic growth.

CORE VALUES

At Feasts Consultants International Ltd, we live and breathe our core values, which form the foundation of our commitment to excellence:

Formidable

We tackle challenges head-on, armed with expertise, resilience, and a determination to overcome obstacles.

Efficiency

We believe in delivering results with precision, optimizing resources, and maximizing productivity to ensure the highest level of efficiency.

Accountable

We take ownership of our actions, accepting responsibility for the outcomes, and striving for transparency and trust in all our interactions.

Sustainability

We are committed to fostering long-term sustainable growth, balancing economic progress with environmental stewardship and social responsibility.

Solution Provider

We are driven by a passion for problem solving, offering comprehensive and innovative solutions that address complex issues and drive meaningful change.

Timeliness

We understand the importance of time in achieving success. We prioritize promptness and agility in our services, delivering timely solutions tailored to meet your needs.

NB; These core values guide our every decision and action, ensuring that we consistently deliver exceptional value to our clients while upholding the highest standards of integrity and professionalism

At Feasts Consultants International, we are dedicated to delivering exceptional consultancy services that empower our clients and drive positive change in the sectors we serve.

OUR SERVICES

Each of our services is tailored to meet the specific needs and goals of our clients. We combine industry expertise, data-driven insights, and innovative approaches to deliver practical and effective solutions. Our experienced team of consultants will work closely with you to identify opportunities, overcome challenges, and drive sustainable growth in your respective field.

- Agribusiness development

- Skilling, training and capacity building
- Student placement and internships
- Project design, monitoring and evaluation
- Research, studies and assessments
- ICT and Digitalization
- Agricultural technologies
- Agro-processing and value addition
- Green economy and climate change

Business and Entrepreneurship:

In today's dynamic business landscape, where unemployment levels are high, the youth population is growing, and customer preferences are evolving rapidly, acquiring the skills for enterprise innovation and growth is crucial. At Feasts Consultants International Ltd, we empower our clients to achieve their business goals and meet market expectations through our comprehensive services, including:

01.

Training, Skilling, and Incubation

- We provide customized training programs and skill development initiatives to enhance the capabilities of entrepreneurs and their teams.
- Our business incubation services offer guidance and support to nurture and accelerate the growth of start-ups and early-stage ventures.

02.

Business Development Services

- We offer strategic guidance and practical assistance in developing robust business plans, identifying market opportunities, and implementing growth strategies.
- Our experts provide market research, competitor analysis, and customer insights to drive informed decision-making and maximize business potential.

03.

Entrepreneurship Development

- We foster a culture of entrepreneurship by providing mentorship, networking opportunities, and access to resources that empower aspiring and established entrepreneurs.
- Our specialized programs focus on cultivating essential entrepreneurial skills, fostering innovation, and building resilience in the face of challenges.

04.

Small and Medium Enterprise (SMEs) Management

- We assist small and medium-sized enterprises in optimizing their operations, improving productivity, and scaling their businesses sustainably.
- Our expertise covers areas such as financial management, operational efficiency, marketing strategies, and talent development.

05.

Youth and Employment Support

- We recognize the importance of addressing youth unemployment challenges and offer targeted programs that equip young individuals with the necessary skills, knowledge, and support to enter the job market or pursue entrepreneurship.

Agriculture, Agribusiness, and Agro-industrialization:

Agriculture continues to serve as the backbone of many developing economies. However, current agricultural practices fall short of meeting global aspirations for food security, nutrition, and sustainable incomes. To address these challenges and foster the commercialization of farming systems and agribusinesses, greater business skills are essential.

At Feasts Consultants International Ltd, we offer technical expertise in the following areas to help you achieve appropriate agribusiness and agro-industrialization models:

01.

Production and Productivity

- We provide guidance on improving agricultural production techniques, optimizing resource utilization, and adopting sustainable farming practices.
- Our experts assist in enhancing productivity through innovative approaches, modern technologies, and effective crop and livestock management.

02.

Farm Management Services

- We offer comprehensive farm management services, including farm planning, resource allocation, cost optimization, and operational efficiency improvement.
- Our consultancy helps farmers make informed decisions, implement best practices, and maximize returns on their agricultural investments.

03.

Agriculture and Sustainable Food Systems

- We promote the development of sustainable food systems by integrating ecological, social, and economic dimensions.
- Our solutions focus on promoting sustainable agriculture, conservation practices, climate resilience, and efficient resource management.

04.

Agribusiness and Value Chain Development

- We assist in developing and strengthening agribusinesses by optimizing value chain processes, improving market linkages, and enhancing competitiveness.
- Our expertise spans market research, value-added product development, branding, market access, and strategic partnerships.

05.

Export, Quality Management, and Certification Support

- We guide agricultural producers and exporters in meeting international quality standards and obtaining certifications necessary for accessing global markets.
- Our services include quality management systems, compliance support, and assistance with export logistics and market requirements.

06.

Agro-processing, Investment, Trade, and Logistics Management

- We offer insights and strategies for agro-processing ventures, investment opportunities, trade facilitation, and efficient logistics management within the agricultural sector.

Projects and Specialized Services:

To achieve optimal performance in the agricultural sector, a multi-disciplinary approach is crucial. At Feasts Consultants International Ltd, we believe in adopting a systems thinking perspective that considers the interplay of various interactive and self-reinforcing ecosystems. We specialize in designing and analyzing successful projects from diverse perspectives, delivering comprehensive and holistic solutions.

Through our experienced and multi-disciplinary teams in finance, tourism, management, environmental sciences, food technology, engineering, governance, and economics, we provide a range of specialized services that drive economic growth and development, including:

01.

Project Feasibility Studies

- We conduct in-depth assessments and studies to determine the viability and potential success of agricultural projects.
- Our feasibility studies help identify opportunities, assess risks, and provide informed recommendations for project implementation.

02.

Project Design and Management

- We offer expertise in designing and managing agricultural projects, ensuring effective planning, resource allocation, and implementation.
- Our team collaborates closely with clients to develop robust project frameworks, timelines, and strategies for successful project execution.

03.

Project Monitoring and Evaluation

- We provide comprehensive monitoring and evaluation services to assess project progress, identify areas for improvement, and measure outcomes.
- Our monitoring and evaluation frameworks enable effective project tracking, accountability, and data-driven decision-making.

04.

Agro-tourism and Community Tourism Development

- We specialize in promoting agro-tourism and community tourism initiatives that harness the potential of agricultural resources and local communities.
- Our services include destination development, tourism planning, community engagement, and sustainable tourism practices.

05.

Green Innovations

- We foster green innovations by promoting sustainable practices, renewable energy solutions, waste management strategies, and environmentally friendly technologies within the agricultural sector.

06.

Grants Management

- We offer expertise in managing grants and funding opportunities for agricultural projects, ensuring compliance, transparency, and effective utilization of resources.

07.

Public-Private Partnerships (PPPs)

- We facilitate and advise on public-private partnerships, fostering collaborations between government entities, private businesses, and other stakeholders to drive agricultural development.

Technology and Engineering:

In a world where change is constant, embracing technology is essential for staying ahead. At Feasts Consultants International Ltd, we provide innovative solutions to enhance productivity and efficiency in agricultural value chains. Our comprehensive range of services includes procurement, supply, installation, management, and leasing of agro-technology and machinery. We deliver technologies, logistics, and infrastructure to drive value chain development, offering:

01.

Irrigation Systems Development

- We specialize in designing and implementing efficient and sustainable irrigation systems to optimize water usage and enhance crop productivity.
- Our expertise covers various irrigation techniques, including drip irrigation, sprinkler systems, and precision agriculture technologies.

02.

. Information and Communication Technologies (ICTs)

- We leverage ICT solutions to streamline agricultural processes, enable data-driven decision-making, and enhance connectivity within the value chain.
- Our services include the implementation of farm management systems, remote sensing technologies, and digital platforms for real-time information exchange.

03.

Agricultural Technologies, Machinery, and Engineering

- We provide access to cutting-edge agricultural technologies, machinery, and equipment that improve production efficiency and reduce labor-intensive tasks.
- Our experts offer guidance on selecting the right equipment, machinery maintenance, and integrating advanced technologies for precision farming.

04.

Marketing and Storage Infrastructure Development

- We assist in the development of marketing and storage infrastructure, including cold storage facilities, warehouses, and processing centers.
- Our solutions focus on improving post-harvest handling, ensuring quality control, and enhancing market access for agricultural produce.

05.

Supply Chains and Logistics

- We optimize supply chains and logistics to ensure seamless movement of agricultural products from farm to market.
- Our services encompass supply chain analysis, transportation management, inventory optimization, and collaboration with stakeholders to reduce post-harvest losses.

06.

Tenders and Supplies

- We provide support in tender processes and procurement of agricultural supplies, including machinery, inputs, and technologies.
- Our team offers expertise in supplier selection, contract management, and ensuring compliance with procurement regulations.

Rural Economic Development:

Rural economic development plays a crucial role in overall economic progress, and at Feasts Consultants International Ltd, we understand its significance. We recognize that rural entrepreneurship is deeply rooted in cultural values, community dynamics, and traditional practices, making it unique and context-specific. Our approach to effective rural economic development combines an understanding of local contexts with modern business management principles. Our blended services draw from various disciplines, including:

01.

Energy Economics

- We provide expertise in energy economics to support sustainable energy solutions in rural areas.
- Our services focus on renewable energy development, energy efficiency, and access to clean and affordable energy sources for rural communities.

02.

Financial Inclusion

- We promote financial inclusion by developing strategies and initiatives that improve access to financial services in rural areas.
- Our solutions include microfinance programs, digital financial services, and capacity building to enhance financial literacy and entrepreneurship.

03.

Institutional Development

- We assist in strengthening local institutions and organizations to enhance their capacity for rural economic development.
- Our services encompass organizational assessments, governance reforms, and capacity building programs to foster effective institutional structures.

04.

Livelihoods, Self-Reliant, and Resilient Communities

- We work towards building sustainable livelihoods and empowering rural communities to become self-reliant and resilient.
- Our approach includes skills development, value chain enhancement, market linkages, and community-based initiatives that promote income generation and sustainable livelihood opportunities.

05.

Mindset Change

- We facilitate mindset change and entrepreneurship development by promoting innovation, creativity, and a business-oriented mindset among rural entrepreneurs.
- Our interventions focus on mindset transformation, entrepreneurial training, and mentoring to foster a culture of entrepreneurship and enterprise development.

06.

Cross-Cutting Issues

- We address cross-cutting issues such as gender equality, social inclusion, environmental sustainability, and climate resilience in our rural economic development initiatives.
- Our services integrate these considerations to ensure inclusive and sustainable development outcomes.

 Through our comprehensive and interdisciplinary approach, we contribute to rural development processes, fostering vibrant rural economies, and creating opportunities for sustainable growth.
